Message

Dear ISAIans,

Greetings!

As the world emerged from the catastrophic second wave of Covid-19 pandemic, we the anaesthesiologists yet again proved our mettle and resilience in withstanding the test of time. From managing critically ill patients to being involved in the multidisciplinary management of grave complications like mucormycosis, we the anaesthesiologists have been incessantly serving the society.

Indian Society of Anaesthesiologists regularly conducted online webinars and academic meet to further streamline the management of Covid-19 pandemic. Various State and City branches of the Society participated and provided with inputs about the lessons learnt and preparing the anaesthesiologists for future.

Among the various objectives behind the establishment of the ISA, the foremost has been to provide an organised environment for the collective pursuit of academic interests and technical excellence in anaesthesiology.

The National Doctor's Day 2021 witnessed the commencement of historic "ISA Online PG Classes- The Classroom Teaching" for our post graduates all over the nation. The online classes are scheduled to be held on every Monday. The purpose of these classes is to enable not just every post graduate across the country to benefit from the wisdom and experience of their seniors but also help in shaping a better future for the budding anaesthesiologists.

On this day ISA National appreciated the front- liners by awarding ISA National Appreciation Certificates to PPE Clad COVID Warriors for their outstanding contribution towards humanitarian cause despite huge personal risks.

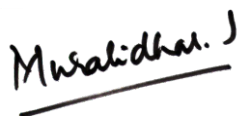

The celebrations continued and we witnessed cultural performances in the form of traditional state dances performed by the ISAIans.

With each new city chapter being added under the prestigious banner of 'ISA National', there has been a substantial expansion of opportunities for ambitious and energetic anaesthesiologists from different regions of the country. The constant efforts at the ISA National Headquarters to expand its roots and strengthen the organisation has been established by inauguration of various new City Branches ! ISA Noida Gautam Buddha Nagar and ISA Agroha City Branch.

Work Safely and Survive.

**ISA Social Outreach Program: World Environment Day 2021
(Theme: Reimagine, Recreate & Restore)
(4 June 2021)**

COVID SECOND WAVE

- Anaesthesiologists, being experts in critical case, almost single handed led the management of so many critically ill COVID patients in the intensive care units.
- The expertise in critical care which the anaesthesiologists possess and the huge number of working hands of our anaesthesiology post graduates and consultants proved to be 'GOD'S HANDS' in this pandemic.
- In addition, the anaesthesiologists ensured optimal utilization of oxygen by guiding all hospital staff in implementing zero leaks at all oxygen ports.
