Honorary Secretary

Message

Dear ISAIans,

Greetings!

The months of April and May 2021 have been extremely challenging for all us, especially We The Anaesthesiologists. In the second wave of COVID -19 pandemic, huge number of patients were infected in a very short span of time. The medical facilities were overburdened with patients leading on to scarcity of oxygen, beds, ICU facilities, remdesivir, tocilizumab, etc. From early morning to late night the focus was to arrange more and more beds and oxygen for the patients. The clinical, administrative, psychological and social stresses were aptly handled by the anaesthesiologists.

Whether it was delivering oxygen from liquid medical oxygen (LMO) tanks, medical gas cylinders, oxygen concentrators or splitting the central oxygen supply (only as dire emergency measures). Anaesthesiologists have always used >99.5% medical oxygen. But the sudden increased demand of medical oxygen led to its extreme shortage. Thus, it was decided to use $93 \pm 3\%$ medical oxygen for COVID -19 pandemic patients through the use of medical oxygen generation plants. These Oxygen generation plants work on 'Pressure Swing Adsorption (PSA) technology involving molecular sieve technology (Zeolite). Use of $93 \pm 3\%$ medical oxygen is approved by Indian Pharmacopoeia, US FDA and EU CE.

Anaesthesiologists, being experts in critical case, almost single handed led the management of so many critically ill COVID patients in the intensive care units. The expertise in critical care which the anaesthesiologists possess and the huge number of working hands of our anaesthesiology post graduates and consultants proved to be 'GOD'S HANDS' in this pandemic.

In addition, the anaesthesiologists ensured optimal utilization of oxygen by guiding all hospital staff in implementing zero leaks at all oxygen ports. The institutes and hospitals which had facilities for ECMO utilized this technique extensively to save the lives of severely ill

COVID-19 patients. During the second wave, more number of patients were put on ECMO and managed successfully also. The shortage of remdesivir and tocilizumab was felt in intensive care management of COVID patients. However, institutional mechanisms were put in place quickly to make the availability of these drugs for the individual patients in the hospitals.

This is now being followed by a sudden surge in mucormycosis cases. Anaesthesiologists are involved in multidisciplinary management of mucormycosis in COVID-19 patients as these patients often require surgery under anaesthesia. The patients suffering from mucormycosis often have coexisting diabetes mellitus for a long time with the resultant effects on the different parts of body like heart, kidney, nerves, eyes, etc. Moreover, COVID itself affects different organs of the body like lungs, heart, blood vessels, nervous system, etc. Also, these patients may have difficult airway during anaesthetic management. In addition, administration of injection amphotericin B can have adverse effects of importance to the anaesthesiologists.

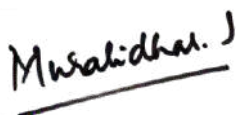

ISA National compliments and appreciates the Office Bearers of ISA State and City Branches who helped in making available oxygen/ICU beds for the anaesthesiology colleagues and their family members/relatives, whenever required.

A large number of Anaesthesiology residents and faculty were infected with COVID in this wave, thus decreasing the number of working hands. But the Anaesthesiologists who got infected quickly returned to COVID duties with 2-3 weeks. At times, anaesthesiologists were doing duties at two fronts: they were managing patients in ICUs and also looking after their family members who were infected with COVID. We also lost many of our anaesthesiology seniors, colleagues and students in the second wave. This was the biggest setback for the families in particular and the anaesthesiology fraternity at large. May their soul rest in peace and God give strength to the bereaved families to bear the irreplaceable loss. May all of you remain healthy and we do not suffer any further loss.

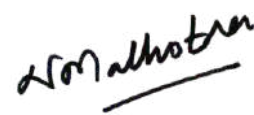

Work Safely and Survive.

SEC/ISA NHQ/RTK/2021/84
Dated: 13-04-2021

68th Annual National Conference of Indian Society of Anaesthesiologists (ISACON 2021)
is now a Hybrid Conference

**Dear ISAians,
Greetings from ISA National Head Quarters!**

Due to the ongoing COVID Pandemic, Indian Society of Anaesthesiologists (ISA) National has decided that the 68th Annual National Conference of Indian Society of Anaesthesiologists at Ahmedabad, Gujarat, India, 24-28 November 2021 will be a hybrid conference. This hybrid model will offer an engaging and exciting experience, both for the delegates who are able to join us in Ahmedabad and those who attend online. With the availability of a virtual option of attending the 68th ISACON 2021, the members can listen to a galaxy of speakers, present their scientific work and compete in award categories, without travelling. For those who are able to travel to Gujarat, the Organizing Committee has made all necessary arrangements as per COVID protocols. This modification in the conduct of ISACON has been done after taking inputs from the Organizing Committee of ISACON, Office Bearers of ISA Branches, Past Office Bearers, Members and detailed discussions amongst ISA National Governing Council Members.

There is a token registration fees for the online event. The members can convert from physical to the online event and vice versa. The delegates who are not able to join in any format can request a refund from the organizing committee. Please check www.isacon2020.com for further updates.

Humble Thanks for your continued support to ISA during these unprecedented and compelling circumstances.

Work Safely and Survive.

ADVISORY FROM INDIAN SOCIETY OF ANAESTHESIOLOGISTS (NATIONAL)

Dear ISAians,
Greetings from ISA National Head Quarters !

Due to resurgence of COVID Pandemic and the ongoing second wave, Indian Society of Anaesthesiologists (National) issues this advisory to all its City/State/Metro branches to defer all activities involving physical gathering till further notice. The activities under the banner of ISA will continue only virtually / online.

ISA National appreciates The ISAians - Frontline COVID Warriors, who are working in all possible ways to protect the health and save lives of our fellow Indians. Please take good care of yourself and your family members' health too. ISA National Head Quarters is available round the clock for any query, advice or suggestion. This advisory is till 30 June 2021 or earlier, as applicable. It supersedes the advisory dated 4/02/2021 vide letter SEC/ISA NHQ/RTK/2021/51.

Wear Face Mask, Maintain Hand Hygiene and Social Distancing.
Work Safely and Survive !

SEC/ ISA NHQ/ RTK/ 2021/ 102

Dated: 26-04-2021

ADVISORY FROM INDIAN SOCIETY OF ANAESTHESIOLOGISTS (NATIONAL)

Dear ISAians,
Greetings from ISA National Head Quarters !

Due to extreme second wave of COVID pandemic, ISA National issues this advisory for its members:

1. Conduct anaesthesia for emergency and semi-emergency surgery only, so as to divert human manpower and resources, including oxygen towards COVID patients. However, the rules and regulations of local Government have to be followed.
2. The Office Bearers of ISA State and City Branches will help in availability of oxygen bed / ICU bed for anaesthesiology colleagues, whenever required.
3. Optimal Utilization of Oxygen: Anaesthesiologists are competent to avoid wastage of oxygen. However, they will guide in optimal utilization of oxygen in all hospital working areas, like
 - a. Zero leaks at all oxygen ports
 - b. Educate awake repositioning and proning to minimize oxygen requirements.
 - c. For emergency surgery, use regional anaesthesia techniques, wherever feasible. For general anaesthesia for emergency surgery, use low flow anaesthesia technique. Judicious use of oxygen in the post operative period.
 - d. The anaesthesiologists are competent to decide, as per their clinical wisdom, upon oxygen delivery and ventilatory support for COVID patients - nasal prongs, face masks, non rebreathing masks, non invasive ventilation, invasive ventilation, etc. Keep the target oxygenation to 94 %. HFNC to be used very selectively.

Work Safely and Survive !

To
Prof. (Dr.) Sunil Kumar,
DGHS,
Ministry of Health and Family Welfare,
Govt. of India.

Sub: Use of 93 % Oxygen in COVID Pandemic.

Respected Sir,

Profound regards and warm greetings from Indian Society of Anaesthesiologists National Head Quarters!

Indian Society of Anaesthesiologists (ISA), the largest body of Anaesthesiologists in India with more than 33,000 members, represents clinical, academic and social issues pertaining to anaesthesiologists in India.

Due to extreme second wave of COVID-19 Pandemic, there is an increased demand of oxygen for COVID patients. Indian Society of Anaesthesiologists (ISA) suggests the use 93 % Oxygen for medicinal use for COVID Patients till the situation improves. It is safe and also as per the Indian Pharmacopoeia 2018, where in two monographs of Oxygen for medicinal use are available i.e. Oxygen 99% (to be manufactured by oxygen manufacturers) and Oxygen 93% (to be manufactured at hospital using molecular sieve process). This will increase the oxygen availability. The copy of Oxygen IP and Oxygen 93% IP is enclosed herewith.

This is submitted for your kind perusal.

Best wishes and regards,

Dr. Muralidhar Joshi
President

To
Dr. Veena Singh,
DGHS, Haryana.

Sub: Mechanical Ventilation Refresher Course for all specialists.

Respected Madam,
Profound regards and warm greetings from Indian Society of Anaesthesiologists National Head Quarters!

Patients with severe COVID 19 infection have to be admitted in critical care/intensive care units and may require ventilatory support. Indian Society of Anaesthesiologists (ISA) is a 33000 strong body with more than 200 branches across India. The Anaesthesiologists are experts in critical care, including decision making and management of patients on ventilators. Indian Society of Anaesthesiologists has already communicated to different Government of India authorities about the availability of anaesthesiologists in critical care/intensive care units in the service of nation during this hour of crisis.

In continuation of our telephonic discussion, due to sudden huge surge of COVID patients, more number of trained doctors are required for management of patients on ventilators. Indian Society of Anaesthesiologists is willing to train doctors in basics of mechanical ventilation through its National/State/City Units. The training will be 'hands on training' on the ventilators actually available in different civil hospitals, general hospitals and the like. The training will be reinforced with online teaching, if required. This service to our beloved Nation India has no financial implications, except travelling expenses, if incurred.

Please find enclosed the List of anaesthesiologists deputed for the ventilatory training in different districts of Haryana
Jai Hind !!

ISA
Indian Society of
Anaesthesiologists

September 1–5, 2021

**CONNECT,
LEARN, SHARE**

www.wca2021.org

Dear colleagues,

WCA 2021 Goes Virtual

In light of the ongoing impact of COVID on international travel, the WFSA and the CSARIM have taken the decision to move to an entirely virtual World Congress of Anaesthesiologists, 1st - 5th September 2021.

Moving online provides an exciting opportunity to ensure that WCA 2021 is the most accessible gathering of its kind. Without the expense of travel and accommodation we expect to welcome the largest global community of anaesthesia and perioperative care providers ever assembled for a congress.

For those who have never been able to travel to a WCA this online format opens up the possibility of attending.

Alongside a comprehensive scientific programme, the virtual platform provides unique opportunities to meet, collaborate and share experiences with a truly global network of anaesthesiologists and intensivists.

Further information about the new WCA format and the appealing registration fees is available through www.WCA2021.org and www.wfsahq.org

Thank you very much and we look forward to welcoming you to WCA 2021.

Yours sincerely,

Adrian Gelb
President, WFSA

Karel Cvachovec
President, Local Organising Committee

Scholarships for the 17th World Congress of Anaesthesiologists 2021, 1-5 September 2021 are now open for applications.

WFSA is excited to announce the opportunity for anaesthesiologists from [low and middle income countries](#) to apply for scholarships to attend the 17th World Congress of Anaesthesiologists (WCA), 1 – 5 September 2021. This will be the first virtual WCA and the scholarship will provide access to the digital platform and all content.

Although our backgrounds and resources may be very different, we all face similar problems and challenges in providing the very best care to our patients. WCA is the preeminent anaesthesia congress and only takes place every four years. This year, for the first time, the congress will be held completely online, meaning scholars will be able to access the content from their home or place of work. Despite not being in person, this year's congress will remain a beacon of first rate, global excellence in clinical content and networking, and we will be able to reach more scholars than ever before.

Scholarship criteria

- Applicants must be anaesthesiologists working in low or middle income countries.
- The application must be accompanied by a letter of recommendation from the applicant's national society which must be a WFSA Member Society (applicants from countries where no national anaesthesia society exists may also apply).
- Preference will be given to applicants who present an abstract or poster during the conference.
- Preference will also be given to applicants who have completed training within the last 10 years and are working in teaching hospitals.

The scholarship will cover:

- All online scientific programmes
- Industry-sponsored sessions
- Abstracts and bbstract presentations
- Exhibition hub
- CME credits
- Networking with all delegates and participants
- Free access to all congress resources until December 2021.

Applications are open for Scholarships

17th World Congress of Anaesthesiologists, 1-5 September 2021 (Virtual).

Application process

- [Check here to see if you are already eligible for free registration to WCA2021.](#)
- [Apply online here for the WCA 2021 scholarship](#)
- **Application deadline: Monday, 14 June 2021 – 23:59 CET**
- Successful applicants will be informed before 30th June.
- Successful applicants must confirm their intention to take up the scholarship within 7 days of notification. Failure to do so will result in the scholarship being offered to the next applicant.

Application documents required

- A CV
- Letter of recommendation from your national anaesthesia society
- Evidence of current workplace / hospital / health facility

Submit your abstracts now

Give your research international visibility by presenting your abstracts at WCA2021:

Benefits of submitting your abstract:

- Present your research to the global anaesthesia community
- Abstracts published in Anesthesia and Analgesia
- Dynamic presentation and discussion
- Posters accessible 24/7

Submission deadline: May 31, 2021 (23:59 CET)

For Letter of Recommendation from Indian Society of Anaesthesiologists (ISA)

War Against COVID : We Can Make A Difference

I got an SOS about oxygen crisis in Government Hospitals because of hundreds of sick patients flooding in 4 days ago....I made a small video at the request of our Rotary Club and sent the request to all the Rotary Clubs in Coimbatore, Round Table, Jewellers and Bullion association and Alumni of Coimbatore Medical college in US. In 48 hours we could raise 2.4 Crores. With this money we are installing 4 Oxygen Generator plant in GH and 3 plants in ESI Hospital..each one having a capacity to generate 100 litres per minute of Oxygen costing 26 lakhs per unit. These are permanent structures and will serve life long. They will be functional from tomorrow. So with these machines we will generate 700 litres of Oxygen per minute. I am extremely thank ful to Rotary Clubs of Coimbatore who gave close to 1 Crore. Generous contributions coming from Round Table, Coimbatore Jewellers and Bullion association and several donors. Indebted to CMCH Alumni Dr Rajesh and Dr. Nithya from USA for raising over 1 crore and making this a possibility. I thank Dr. Katja Muderlak Rorarian from Netherlands for raising 20 lakhs. I thank Faraday company for working on a war footing in installing the Oxygen Generators in such a short time. I am sure many of you will be doing projects like this across India.

Together we should preserve lives !
